

# KENT CAMS

## POWER BOOST

for

### MINI METRO 850/1275cc

## Enhanced Performance Sports Camshafts

### MD266 - SPORTS

First stage cam for any carburettor engine. No additional modifications necessary. Simple fit with 6-10 bhp gain depending on engine size. Excellent initial acceleration.

Power Band 1000-6500 rpm. Valve Lift .320" inlet/.330" exhaust. Duration 260° inlet/ 270° exhaust.

### MD274 - SPORTS INJECTION

A new cam specifically designed for late single point injection engines. Latest low duration/high lift technology gives excellent mid range with no loss of torque.

Power Band 1000-6000 rpm. Valve Lift .348" inlet/.343" exhaust. Duration 248° inlet/ 274° exhaust.

### MD276 - SPORTS 'R'

Road cam suitable for slightly modified engines. Multi purpose use, giving good acceleration and excellent mid range. No machining needed to fit. 105 bhp possible on 1380cc engines.

Power Band 1500-6500 rpm. Valve Lift .360" inlet/.388" exhaust. Duration 270° inlet/ 280° exhaust.

### MD286 - SUPERSPORTS

Ultimate road cam. 118 bhp and still road useable (just!). Fully modified engine required. Will see off most hot hatches without any trouble. Still the best cam available in its class.

Power Band 2000-7500 rpm. Valve Lift .388" inlet/.400" exhaust. Duration 280° inlet/ 290° exhaust.

A **PERFORMANCE KIT** is the most cost effective way of buying a sports cam and ensures compatibility of all additional components.

A **POWER PULLEY** is infinitely adjustable for accurate timing and is recommended for maximum performance.

A **COMPETITION CAM BELT** should also be used to ensure ultimate durability in modern high performance engines.
